

## 1. Download Microsoft Teams and Login

I have included the link for Microsoft Teams below;

Download from here: <https://teams.microsoft.com/downloads>

Logging on Y1 – 6: You will receive login details in an email. This will be an email address and password. Part of the MS Teams experience is to have an email account as well as other features. However, features have been restricted for pupils to only allow them to use the program for lessons and homework. I understand some parents may use MS Teams for work. However, for Years 1-6, please use the login we provide.

Little Griffins and Reception: You will be invited using a parental email. This is to make it easier for you as your main learning environment will remain on Tapestry.

If that all sounds like a foreign language, do not worry. We have created help videos and they can be found here:

Video 1 - Downloading Teams:
